Learning paths completed

N/A means either not all module assessments exist or there is no pass record. All Learning Paths in this table are complete.

Learning path title	Description	Completed on	All module assessment results
Work with the Microsoft Dynamics 365 Business Central user interface	Do you want to learn about the Business Central user interface? This learning path shows you the user interface, and also how you can personalize it. It also discusses alternate interfaces such as a smartphone.	Dec 20, 2022	N/A
Sell items and services in Microsoft Dynamics 365 Business Central	If you sell items or services to customers, this learning path can help you learn how to use Business Central to manage the sales process.	Dec 20, 2022	N/A
Get started with Trade in Microsoft Dynamics 365 Business Central	Are you using Trade in Business Central? This learning path discusses the setup requirements and how to start using Trade in Business Central.	Dec 20, 2022	N/A
Set up financial management in Microsoft Dynamics 365 Business Central	Do you want to use Business Central for financial management? Then, this learning path is for you. It discusses the setup of number series, audit trail codes, posting groups, dimensions and the chart of	Dec 20, 2022	N/A

accounts.

Architect solutions for Dynamics 365 and Microsoft Power Platform

Becoming a Solution Architect for Dynamics 365 and Microsoft Power Platform.

Dec 20, 2022

N/A

Use Lifecycle Services to design and plan an implementation of finance and operations apps

Lifecycle Services is a collaborative workspace that customers and their partners use to manage finance and operations apps projects from pre-sales to the implementation phase and finally to the production environment. It provides checklists and tools that help you manage the project, including pre-build methodologies to help with implementation and regularly updated services.

Dec 20, 2022

N/A

Deploy and configure Microsoft Dynamics 365 Business Central

Are you new to Business Central? If you are, this path will help you get started. It discusses how to create new companies, implement security, migrate data from other systems, and integrate Outlook with Business Central.

Dec 20, 2022

N/A

Are you interested in Business

Get started with Microsoft Dynamics 365 Business Central	Central? If you are, this learning path provides a good introduction. It discusses how to set up a trial, provides some basic information about what's available, and shows some personalization options you can make to customize Business Central for your use.	Dec 20, 2022	N/A
Work with essential development standards for Microsoft Dynamics 365 Business Central	Do you want to develop extensions for Dynamics 365 Business Central? If you do, this learning path will help you do it by following a set of standards that are used by many developers just like you. We'll discuss different tables you'll encounter, documents, master data and more.	Nov 20, 2022	N/A

Modules completed

N/A in the module assessment result column means either the module assessment doesn't exist or there's no pass record for it. All modules in this table are complete.

Module title	Description	Completed on	Duration	Module assessment result
Integrate Dynamics 365 Business Central with Teams	Learn to integrate Dynamics 365 Business Central with Microsoft Teams.	May 20, 2026	48 min	N/A

Connect to the intelligent cloud with Dynamics 365 Business Central	Are you interested in exposing your Business Central data to the intelligent cloud? This module covers the required setup process and steps to view intelligent cloud insights in Business Central.	May 20, 2026	56 min	N/A
Get started with a finance and operations implementation project	The implementation lifecycle for finance and operations will help you to understand the best practices recommended to accomplishing a successful journey through a finance and operations implementation, and the tools available to support it.	May 20, 2026	50 min	N/A
Use Azure Pipelines for CI/CD with Business Central	Do you want to know how to configure and set up an automated build process? In this module, you'll learn how to configure CI/CD with Business Central applications, how to create pipelines using YAML files, and	May 20, 2026	46 min	N/A

set up a release process.

Introduction to becoming a business applications professional

This module introduces Microsoft Dynamics 365, digital transformation, project teams and stakeholders, and implementation methodologies.
